

## MENTOR APPLICATION

Greetings World Changer!

When we support the growth and empowerment of women and girls, we raise the quality of life for everyone. This is because when women lead they not only lead businesses, they lead in their community, they fight for their children, and they give voice to issues that are important to our collective future — like education and health care. Makes sense to me. But how do we get there?

I am honored to launch **“Daughter Of The King Academy & Mentoring Program”** an organization going in at the ground level and supporting girls and young women in under-served communities through the practice of mentoring.

We are seeking trusted role models, mentors & leaders willing to provide wisdom & resources that will help guide girls through the importance of financial literacy, balanced nutrition, proper etiquette, positive self-esteem and professional development throughout the year ahead.

If interested please review the requirements, review the application & return it along with a updated photo. Selfies are okay :-)
